

Blackfin Cloud Services is a holder of the CA Multiple Award Schedule (CMAS), and a CA Small Business Certified organization expert in low-code software solutions.

Specializing in the **Microsoft Power Platform**, we have delivered customized and highly functional software solutions for a wide variety of state and local governments across the United States.

What differentiates us are our programs such as **"Built By You"**, **"Built With You"** and **"Rapid Delivery"**, all designed with agency independence and ultimate ownership in mind from the beginning of every engagement.

Company Overview:

After 20 years of using low-code platforms to deliver excellent software systems for state and local governments, our mission has evolved to our current focus:

We aim to change the way government buys software systems and technical services.

Blackfin Cloud Services provides a way for you and your team to have the systems you need quickly and easily, with vendor independence and in-house ownership the goal all along.

Examples include solutions for Procurement, Labor Negotiations, Process Automation, Managed Communications, Program Management, Routing and Approval and Contract Management.
